**NEW FRENCH CANNAS.** We ask attention to the full page list of nearly all leading kinds and novelties elsewhere in this book. We invite correspondence from all interested in Cannas. We have several newer sorts not yet introduced and aim to keep in front on New Cannas.

**FLORISTS' FLOWER SEEDS.** Our motto "All Florists' Stock in Season" is not forgotten in these. We deliver the new crop seeds as soon as they have ripened and can be secured, but we do not sell old seeds for new.

**Terms on Florists' Stock:** To customers of approved credit 60 DAYS, except on certain CASH items. Special 3 per cent. discount for cash in 10 days, (from these list prices only,) not from "Special" quotations and excepting NET CASH items.

**New Accounts:** New customers, if not already well known, will please send cash with first order and if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is often very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For references please name bankers, wholesale merchants or other well-known business men with whom you have had dealings—such information will be held in confidence.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order; PERISHABLE stock, plants, etc., are POSITIVELY NOT SENT C. O. D.

**Our Responsibility:** While we always aim to have the best BULBS AND DORMANT PLANTS which each season affords from reliable houses, we cannot and we do not guarantee any of them to flower or produce a crop of flowers at the prices given, nor will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when such plants are ordered by freight by the purchaser. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

## • LILIAM HARRISII. •

This Lily continues a profitable favorite with nearly all our customers; while our own Bermuda grower has been short, we have supplied our trade with stock from two other most careful growers on the Island, whose product we are able to vouch for through the careful personal inspection of our own traveler who has visited the fields for two successive seasons.

### SPIRAEA or ASTILBE. (READY NOVEMBER 10th.)

**Compacta Multiflora.**—This new variety from 8 to 10 inches in height produces larger and finer blossoms than the Japonica. Two weeks earlier. Per doz., \$1.00; per 100, \$7.00.

**Aurea Reticulata.**—This variety is the same as the above, excepting that the leaves have golden yellow veins. Per doz., \$1.25; per 100, \$8.00.

**JAPONICA, Extra Strong Clumps**, per doz., 75c.; per 100, \$5.00, (in New York \$4.50.)

RESULTS last season verified the correctness of the recommendations made to our customers in favor of planting forcing bulbs at the low prices then prevailing. Though high values were not realized, the prevailing state of trade not admitting it, still, as a rule, all the product was disposed of at fair prices. Now for the coming season, the small advance this year over the very low prices of last, still holds our advice good. The dull season is past and you are ready for that half of the year during which all money must be made in the florist business. Without stock you cannot do business, and the expense and time already gone can only be made up by active effort the coming months, and with stock to do business on.

But few florists even among those who know how well it can be done, really avail themselves of the various forcing bulbs for furnishing a continuous supply of cut flowers through the Winter and Spring. By planting at intervals, by storing in cold frames and pits and by other methods, Roman Hyacinths, Harrisii, Tulips, Lily of the Valley and most other forcing stock can be had in bloom during the Winter and Spring with very little extra expense and with much better average profit than when the same are forced in large lots for special seasons.

## ROMAN HYACINTHS.

This stock, while a trifle higher than last year, is still 150 per cent lower than it was five or six years ago, and surely remains profitable for the wholesale trade, and indispensable for the retailer during the bad winter weather when crops of other flowers are short. The bulbs are scarce and only the medium sizes can be had.

## CHINESE NARCISSEUS or ORIENTAL LILY.

This is undoubtedly the best selling bulb for the retail counter trade on account of its easy growth in the ordinary living room; flowering in water and gravel in three to five weeks from planting. We have a fine stock of both the Chinese and Bermuda grown roots. We find the e produced in Bermuda are best suited for pot culture and are rather more certain to produce good flower spikes.

**Chinese Grown**, ready Sept. 20. Per 100, \$5.00; per 1000 in Chicago, \$45.00; per 1000 in N. Y., \$43.50.

**Bermuda Grown**, ready now. Per 100, \$4.50; per 1000 in Chicago, \$37.50; per 1000 in N. Y., \$35.00.

## JONQUILS.

As forcing bulbs Jonquils are very highly recommended, especially the single sweet-scented, the flowers of which are about an inch in diameter and a splendid color; often two blooms on a spike. Can be brought into flower in January and find ready sale. Being perfectly hardy do well in open ground.

Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size, such as with proper handling ought to give most satisfactory results. So much, however, depends on the treatment of this stock in forcing and storage that we will not assume any responsibility for the crop.

**BEST HAMBURG PIPS.**—Per 100, \$1.00; per 1000, \$8.75; per 1000 in 5000 lots, \$8.50 in 10,000 lots, \$8.00. We do not handle the lower grades of this stock.

**BEST BERLIN PIPS.**—Price, \$1.00 per 1000 higher than the above.

**CLUMPS.**—Extra strong. Doz., \$2.25; 100, \$18.50.

In forcing Lily of the Valley the following points should be observed: For Christmas flowers they should be planted by December 1st, as you can always calculate on twenty-one days from the time of planting to that of cutting your first flowers. They do best in benches in about six inches of sand. Give plenty of moisture and a temperature of 75° to 90°. Shade your house from the direct rays of the sun and water twice a day with tepid water until the flowers begin to open, when water should be withheld, as the flowers become easily water-soaked.

LITTLE GEM CALLA.

# STROBILANTHES DYERIANUS.

## ROYAL PURPLE.

A new house and bedding plant; was awarded the Gold Medal offered by the King of the Belgians at the Ghent exhibition. It forms a compact bush eighteen inches high, with leaves six to nine inches long, three to four inches wide, and of the most intense *metallic purple* color, shading into light rose with a light green margin, a combination unapproached by any other plant. The flowers are a lovely violet-blue, very beautiful. Mr. Pfister, of the White House, Washington, put it in the open border, where it grew and colored up beyond all expectation in a very exposed position. It has created a veritable sensation wherever exhibited, and will be grown by the thousand as a bedding plant, while at the same time one of the most brilliant decorative plants in existence; for table ornament, parlor or greenhouse, nothing can equal it. Price, 2½ inch pots, per dozen, \$2.00; per 100, \$12.00.

## SWAINSONIA GALEGIFOLIA ALBA.

Most profitable plant, producing spikes of pure white flowers from four to six inches long in the greatest abundance the entire year. The flowers are exactly like a small Sweet Pea and last well when cut. It requires the easiest kind of culture—as easily raised as a Geranium or Heliotrope. It does best in a temperature of from 45 to 54 degrees. Strong plants from 2½ inch pots, per doz., \$1.25; per 100, \$8.00.

## GOOSE FLOWER. *ARISTOLOCHIA GIGAS STURTEVANTII*.

A rampant, free-flowering vine, covering easily much space on porch, wall or trellis. It has grown two inches in twenty-four hours. It bears from twenty-five to fifty immense odd shaped flowers at a time; these, when open, measure about 12 x 18 inches, not including the long tail-like appendage about 2½ feet in length. Our stock has been propagated from original plant shown at the World's Fair. Price, 2½ inch, each, 30c.; 3½ inch, each, 75c., plants 3 to 4 feet high.

## THE CALIFORNIA VIOLET.

Plant vigorous and absolutely free from disease; flowers single, immense in size, covering a silver dollar; color violet-purple (does not fade); fragrance intense; flowers borne on strong stems ten to fourteen inches in length. Last season several hundred flowers were picked from a single plant. Price, large field grown clumps, each, 20c.; 100, \$15.00; 3 inch pots strong plants at \$10.00; 2½ pots, strong plants at \$6.00 per 100.

**DOUBLE RUSSIAN VIOLET.**—This Violet will *not* force to advantage under any conditions. It flowers well only when grown naturally and is perfectly hardy. Flowers are blue, very large, double and strongly fragrant. Small plants per doz., \$1.00; per 100, \$6.50; clumps, per 100, \$12.00.

**VIOLET, Marie Louise.**—Clumps. Per 100, \$10.00; per 1000, \$75.00.

# CANNA NOVELTIES.

PRICES BASED ON DELIVERY OCT. 15.

## MEDAL WINNING

Varieties controlled by us and offered for the first time in  
Spring, 1895.

These novelties we consider of great value and permanent additions to the high class Cannas, they are the cream of twenty kinds chosen by M. Crozy from his entire stock of seedlings to represent his best achievements in Cannas up to 1893, (excepting Queen Charlotte).

**CHICAGO.**—(Medal awarded.) New. Best vermilion scarlet to date; 4ft., green foliage with leaves 9 to 10 inches wide, flower truss and stalk stand boldly erect. The large flowers open out nearly flat, petals 1½ inches wide and five in number—in this respect the Chicago fairly out-classes all Cannas, the fifth leaf adding much to the blossom and flower spike. The color is a clear, deep vermilion, smooth and without markings except a purplish gloss. Each, 50c.; doz., \$4.00; per 100, \$25.00.

**QUEEN CHARLOTTE.** New German Canna.—A most distinct flower, rich crimson-scarlet with wide gold border on every petal. A very handsome plant, medium in height, compact grower, broad, green leaves. It is a profuse bloomer, and the flower-spike which is full and well formed, stands well above the leaves, yet not so tall as to appear drawn or ungainly. Each, 30c.; dozen, \$3.00; per 100, \$20.00.

**MIDWAY.**—(Medal awarded.) 4½ feet, green foliage, strong grower, color, rich vermilion slightly streaked with faint crimson; petals 1½ inches wide, compact flower spike, a strong grower and free bloomer. The crimson streaks and splashes in the petals make a splendid effect on their back ground of scarlet. Each, 50c.; doz., \$4.00.

**MRS. J. M. SAMUELS.**—4 feet, foliage green with purplish stems; leaf medium; free flowering, flowers large and deep salmon, heavily dotted with crimson spots; strong grower and a good sort. Each, 25c.; doz., \$2.50.

**MRS. F. L. AMES.**—(Medal awarded as No. 120.) 4 feet. Green foliage, petals wide but short, color deep salmon, dotted slightly with crimson. Reverse of petals salmon yellow. Each, 35c.; doz., \$3.00.

**J. WILKINSON ELLIOTT.**—4½ feet, green foliage, flower-spike large and open, petal long and broad, color light vermilion, covered lengthwise with fine distinct crimson veins, slightly edged with yellow. Each, 25c.; doz., \$2.50.

**M. MESNIER.**—(Medal awarded.) 3½ feet, dark-green foliage, sturdy growth, flowers large, petals wide, color salmon, slightly dotted and streaked with red, which is deepest in the center of the flower. Petals are bordered with a narrow rim of yellow which is irregularly wider on the ends, often ¼ to ½ inch wide. Each, 35c.; doz., \$3.50.

**GENERAL DODDS.**—4 feet, rich deep bronze foliage, good grower, flower deep vermilion with slight crimson dots; flowers of good size and reflexes more than any other Canna. Each, 50c.; doz., \$4.00.

**SPECIAL OFFER: One each of above Eleven sorts for \$4.00.**

## CARNATION.

### The Guillaud or Riviera Market.

This we offered for the first time last season; has been obtained by careful selection from the Margaret, and is far superior to it or any other Carnation seed ever offered; the flowers are of larger size, better substance, greater doubleness, and more varied markings and colorings, many having grounds and shadings of yellow, a color which is very rare in seeding Carnations. They will also, like the Margaret, bloom when only about three months old, and taken up in the fall the plants will bloom during the winter. Pkt., 25c.

**Carnation, Mad. Guillaud.**—In this we have the best yellow, Carnation that will bloom from seed in four months. The flowers are very large and double. 100 seeds, 50c.

**Carnation, Dwarf Margaret.**—Giant white. Flowers very large and double, pure white with only an occasional pink streak. Trade pkt., 35c.

## NEW DOUBLE PERPETUAL CARNATION.

Our Seed is Direct from the Originator.

As early as the Margaret Carnation, this new sort will be found invaluable for Florists. The plants grow up to 20 inches in height, and have handsome foliage. The stalks are very stiff like wire, and the flowers large and very double. The calyx rarely ever bursts, and the percentage of double flowers is very great, about 90 per cent. They are, as the name indicates, perpetual bloomers, and having seen these Carnations bloom in Mr. Chaudaud's garden last summer, we have personal knowledge of the superior qualities of this sort. Pkt. 25c.

**Carnation**, fine double mixed. Oz., \$1.50; pkt., 15c.

**Extra** choiced mixed. 500 seeds, 50c.; pkt., 25c.

**Vienna Dwarf**, they are hardy with a little protection and bloom early. Per ¼ oz., 50c.; oz., \$1.50; pkt., 10c.

**Countess of Paris**, clear canary yellow, flowers of medium size, but produced in enormous quantities, come true from seed. 150 seeds, 25c.

**Grenadin**, excellent for Florists' use; flowers salmon red. Pkt., 10c.

**Grenadin White**, a splendid white, comes true from seed. Pkt. 20c.

**Rose Rivoire**, coppery yellow, turning into soft pink. Pkt., 25c.

**Margaret**, blooms in three months from seed. ¼ oz., 50c. Pkt., 10c.

**New Dwarf Margaret**, an improvement on the above, flowers larger, more double and better colors, plants shorter and more stocky, mixed colors. Pkt., 25c.

**New Dwarf Margaret**, white, pink, scarlet, and striped each. Pkt., 25c. Trade. Oz. Pkt.

# PANSIES.

**PANSIES ARE ONE OF OUR SPECIALTIES** and we take special pride and extraordinary pains to have the *Very Best Seed* obtainable, regardless of cost, and we believe that the increasing demand for our seeds, proves that these efforts are appreciated, and we ask you to *try our Seed and be convinced* of the above facts if you have never seen our Pansies in bloom. Crop 1895.

## VAUGHAN'S INTERNATIONAL PANSY MIXTURE.

Florists who cater to a fancy retail trade must have the best Pansies that are to be had. There are very fine Pansies to be had in Europe and the mixtures can be had at low prices, but our experience has taught us that we must decidedly make our own mixtures. Pansies have always been one of our specialties and we have always made it a point whenever one of our firm was on a tour of inspection through the European seed farms to pay particular attention to Pansies and we have in this way succeeded in locating and securing the choicest strains, especially of some florists whose entire stocks have always been taken up by some local seedsmen. All these special strains, as well as the best Giant and German Pansies, are contained in *Vaughan's International Pansy Mixture* and in the proper proportion; many red shades will be found in it this year. We are sure that plants raised from this mixture will secure you more trade.

**VAUGHAN'S INTERNATIONAL MIXTURE.**—Pkt., 50c.; 1/2 oz., \$1.50; 1/4 oz., \$5.00; oz., \$10.00.
